Together we are strong

What is Student Voice?

Student Voice involves a group of children who meet each week and discuss important topics that affect all of us at ENPS. Two children are chosen from each class in Year 1 and 2 to represent their classes each term.

Term 1

In Student Voice, we get the opportunity to ask our own classes different questions, which we then discuss at Student Voice. This term we have discussed a lot of different things. We reflected on what we have learnt during 'I am an Environmentalist,' and shared all of the things we can do to keep the planet clean and healthy. The Junior School had a great time with Tread Lightly and during Student Voice sessions we talked about what we can do to be an environmentalist at school. Ideas included picking up rubbish, turning off power, and not wasting water.

March 7th

In Student Voice today we picked up rubbish around the school.

We picked up sooo much!!

We talked about how ...

- it is not nice for us to play or eat our lunch around rubbish
- that we put our rubbish back in our lunchbox or in the rubbish bin
- it is not good for the birds especially if they eat small bits of plastic
- we wash our hands after picking up rubbish as rubbish is dirty (and a bit smelly!!!)

Meet Term 1's Student Voice Team

One of the questions we asked our Student Voice representatives was what do they enjoy learning about in science. Their feedback included -

- Potions (chemistry)
- Learning about volcanoes and earthquakes
- Being outside and learning about nature
- Making rockets and making them blast into the air
- Bubbles
- Space
- Growing plants

I am an Astronomer

Some of the ideas we brainstormed for next term

- Why does the moon change shape?
- How do astronauts live in space?
- How do rockets get to space?

We wish the Term 2 Student Voice representatives all the best as they take the lead with the 'I am an Astronomer' topic next term.

Things we are looking forward to...

Next term there are many exciting things happening. Some of these include...

'I am an Astronomer'

Science Week

A class visit to Stardome
